

Art. 5140

Pressure regulator with flow gauge, i.e. with indication l/min on secondary gauge. Integral safety valve. This pressure regulator is a cost effective alternative to Art.5150. With this system the flow is regulated by adjusting the secondary pressure and via a throttle valve in the outlet.

Connection: screw connector for cylinder

Outlet: hose connector 3/8", 1/4"

Gases: AR, C, N, NH, O, DL

Art. Nr. 5140	
Inlet pressure (bar)	200
Working pressure (bar)	variable
Flow rate (l/min)	4–24/32 (0–7.9 bar)

Accessories: rubber protection for gauges in red, blue, black or grey
Art.5120
