

Art. 6740

Mini pressure regulator with flow gauge, i.e. with indication l/min on secondary gauge. Integral safety valve. The flow is adjusted on the regulating screw by changing the secondary pressure and through a throttle valve in the outlet.

Connection: screw connector for cylinder

Outlet: hose connector 3/8", 1/4"

Gases: AR, C, O, DL, NH

Art. No. 6740	
Inlet pressure (bar)	200
Working pressure (bar)	variable
Flow rate (l/min)	1.6–16/22
