The practical gas soldering kit

Ideal for

- maintenance and repair
- do-it-yourself
- goldsmiths
- opticians
- dental technicians

The HOBBYFLAM kit is supplied with an oxygen cylinder. This cylinder will be refilled by your usual gas supplier or you also have the possibility to refill your small oxygen cylinder from a large standard cylinder by using a decanting tube.

Technical data:

Oxygen content	500 l
Content disposable gas container	340 g
Dimensions	46 x 28 x 15 cm
Weight	7,8 kg

Burning time:

With micro soldering head	approx. 10 hours
With soldering head No 1	approx. 3 hours
With soldering head No 2	approx. 1 1/2 hours
Flame temperature	max. 2830°C

The HOBBYFLAM gas soldering kit includes :

Art.No	
2501	• carrying frame
3000-O-L	• oxygen cylinder (empty)
6825	• mini oxygen pressure regulator
3050	• disposable gas container (content 340g)
5000	• gas regulator with flashback valve
1005-O	• oxygen hose 2 m
1005-P	• propane hose 2 m
1621-O	• flashback arrestor oxygen
1621 -A/P	• flashback arrestor fuel gas
3901-5	• torch handle
3911-HF	• soldering head No 1
8230	• welding goggles
8210	• gas lighter
2500-EN	Complete kit

Available as extras :

3903	soft soldering torch with soldering iron support and holder
3501	soldering iron hammer shape
3502	soldering iron pointed shape
3912-HF	soldering head No 2
3965	micro soldering head with 3 interchangeable needles
4501-P	cutting attachment
4521-P	cutting nozzle 3-20 mm
4502	roller guide
4503	compass
3000-O-L	oxygen cylinder 2.5 l (empty)
3050	disposable gas container (340 gr)
3060	box with 12 gas containers
